

A tech pack is the technical blueprint you hand a factory — every material, measurement, stitch and piece of hardware, spelled out so nothing is left to guesswork. Fill in each field below and attach your sketches. A complete pack means accurate quotes, faster sampling and consistent production.

1 COVER & STYLE INFO

Style name _____ Style code _____ Revision _____ Date _____

Brand / contact _____ Season _____

Target MOQ _____ Target FOB price _____

2 TECHNICAL SKETCHES (ATTACH)

Attach clean 2D line drawings: front · back · side · base · interior · exploded view (as needed).

3 BILL OF MATERIALS (BOM)

Item	Material / spec	Weight / thickness	Colour (Pantone/swatch)	Finish	Supplier code	MOQ
Shell						
Lining						
Interlining / reinforcement						
Thread						
Hardware (zip/pulls/rings/buckles/rivets/feet/snaps/magnets)						

4 CONSTRUCTION & STITCHING

Panel assembly notes

Stitch type(s) _____ SPI (stitches/inch) _____

Edge finish (paint/burnish/skive/turn) _____ Reinforcement _____

5 SPEC SHEET & MEASUREMENTS — ADD TOLERANCES, E.G. ± 0.5 CM

H _____ × W _____ × D _____ (tol _____)

Strap length / drop _____ Handle _____ Pockets _____

Hardware sizes _____

6 BRANDING & LABELS

Logo method (emboss/deboss/foil/plate) _____

Placement & size _____ Care label _____

Hangtag _____ (attach artwork)

7 PACKAGING & QC

Dust bag _____ Polybag _____ Box _____ Carton _____

QC / inspection standard & rejection criteria
